

Informed Consent Form

I, _____, seek and consent to the services of Maleigha Watts, ND to provide supportive, naturopathic care for myself or my minor child or children. Naturopathic services use natural means and remedies to further health and wellness, including assessment and patient education and counseling about nutritional interventions; herbal and homeopathic remedies; lifestyle modifications and a range of other natural interventions/consultation.

Non-Medical and Complementary Nature of Services

I understand that Maleigha Watts, ND is not a medical doctor and that naturopathy is not a medical specialty but a separate and distinct health care tradition. I understand that Maleigha Watts, ND is a licensed naturopathic physician in the State of Arizona, based upon her four-year graduate training in an accredited institution as a naturopathic physician. Naturopathic physicians are licensed in 17 states, and in the District of Columbia, but the State of Ohio does not currently offer such licensing. Where naturopathic physicians are not licensed, their scope of practice does not encompass the diagnosis and treatment of disease, but is focused upon consultations regarding natural remedies. Maleigha Watts, ND's consultations include discussion of nutritional issues and of diet, nutrition and supplementation, such as the use of dietary supplements and botanical substances; homeopathic remedies; mind-body supportive counseling; promotion of healthy lifestyles and wellness.

Maleigha Watts ND's work in Ohio does not allow her to offer the full range of services within her training, but the educational consultations she provides are at the core of the naturopathic approach to health. I understand that her assessments and recommendations are intended to assist me in using natural means to support my health and are not intended to provide medical diagnosis or treatment. I should not avoid any diagnostic work-ups or change or discontinue any medical treatment based upon my consultation with Maleigha Watts, ND and if I believe that modifications may be sensible in the light of these natural approaches, I agree to first discuss such changes with my prescribing medical physician.

If I believe that I have a condition that requires medical care, I will consult my primary care physician or an appropriate specialist. It is important that I maintain regular visits with my primary care physician and medical specialists as appropriate, both to ensure proper medical care and because Maleigha Watts, ND is not affiliated with a local hospital and I should have a medical physician who can provide care in the event of an emergency or hospitalization. When appropriate, Maleigha Watts, ND may communicate with members of my health team regarding my conditions, treatment options, and/or any other health related issues. **I agree to follow-up on referrals for medical care when necessary.**

Naturopathic practice uses methods that are known as complementary, alternative, or holistic care, and may not be accepted by the larger community of medical physicians. Maleigha Watts, ND may suggest laboratory tests, some of which are used by holistic physicians and naturopathic practitioners but which are not in widespread use in the medical community. Further, the interpretation of some tests may be different than in mainstream medicine. It is a good idea for me to get the advice of my medical physician as I make decisions that affect my health.

Maleigha Watts, ND will explain her assessment to me and describe the nature of her recommendations, the expected prognosis without such care, and the anticipated costs, risks, benefits and experience of following various options. I understand that a core approach taken by naturopathy is achieving better health status through

improvements in diet and the use of dietary supplements to improve biological function, as well as exercise and other lifestyle modifications. The focus of naturopathic care is to alleviate the underlying conditions that can bring about illness rather than the treatment of symptoms. While I may experience some immediate improvement from the use of herbs, homeopathic remedies and other botanical and naturopathic methods, I understand that the most effective results occur when I make a long-term commitment to rebuild my health. It is my responsibility as a patient to follow-up with Maleigha Watts, ND within a recommended time period for evaluation of treatment results or to change treatment protocols as necessary.

I understand that Maleigha Watts, ND does not offer after hour services or provide any hospital-based services. If I have difficulty with any of remedies or other aspects of my work with Maleigha Watts, ND, I understand I should call during business hours to discuss concerns I may have.

Potential Risks: As with any method of care, naturopathy can involve some risk. I understand that I may experience aches, pains, or even new symptoms as the body responds by shifting its balance. This is generally a positive sign and shows the body is making positive movement. Some people may experience a healing crisis, a short period in which symptoms worsen or a period of a flu-like illness with mild fever, chills, dizziness, loss of appetite, or similar symptoms. Such an experience can signal the body is detoxifying.

While herbs and botanical products are generally available over-the-counter and are considered safe based upon their long history of use, many of them have not been widely tested. Negative reactions to natural remedies may include rare allergic reactions, including headaches, itching, hives, difficulty breathing, and very rarely, even shock or death. I understand that the interactions between herbs, and between herbs and drugs my medical physician might prescribe, are not yet well known, and that while unlikely, I could have an adverse reaction or experience a reduction or increase in the effect of other medications. This can have serious consequences for some medications, such as for the control of high blood pressure or blood sugar. I understand that I should let my physician know what herbs I am taking, particularly prior to surgery or other procedures. Negative reactions to homeopathy are extremely rare given the doses used; an effective dose may result in a temporary increase in my symptoms or healing crisis. I understand that it is my responsibility to alert Maleigha Watts, ND of any adverse effects or reactions.

Notice to Pregnant Women: All female clients must alert Maleigha Watts, ND if they know or suspect that they are pregnant as some of the remedies used could present a risk.

No Guarantees: I am aware that such consultations are an art, that like many medical interventions, many naturopathic efforts have not been subjected to rigorous scientific study, and that there are wide individual differences in responses to these services. No guarantees are made that I will gain any benefit or not suffer any adverse consequences. In the event that a dispute arises that we cannot resolve amicably, I understand that Maleigha Watts, ND is not practicing medicine and that if a legal case is brought, I agree that Maleigha Watts, ND shall be judged by the standards and principles of complementary, alternative, and/or holistic care and not the standards of consensus conventional medicine.

Supplement Purchases: I understand I am not obligated to purchase nutritional or herbal products recommended by Maleigha Watts, ND, from this office or from any specific vendor, and I will be given the same level of attention without regard to my purchases. I understand that Maleigha Watts, ND may profit from the sale of supplements and other products made available to patients.

Privacy Policy: My privacy is important and my records will be held confidential unless I request in writing that they be released to me or to other care givers. The HIPAA privacy regulations do apply to this office and Maleigha Watts, ND. This policy is available in the office and at their website should I wish to review it.

Important Insurance and Payment Notices: Maleigha Watts, ND's services are, with few exceptions, not reimbursed by insurance or Medicare and she does not accept insurance. Insurance generally provides services only when delivered by individuals licensed to provide health care services in the state in which care is delivered.

Maleigha Watts, ND is therefore unable to accept insurance payment and does not provide billing statements for insurance reimbursement. Payment in full is required at each visit. I understand I am responsible for payment even if I submit and am denied reimbursement, even if my insurer determines that services are not medically necessary. I understand that appointments can be made by phone or in person. Maleigha Watts, ND requests 24-hours notice for canceling or rescheduling appointments. For any visits canceled with less than 24-hours notice, the patient will be charged \$85.00 except in the case of family or medical emergency. This charge will be applied to the following visit or billed directly to the client. Late arrivals will not receive an extension of scheduled service times and will be responsible for full service fee. In the event legal action is required to collect payment, I agree to be responsible for attorney fees and costs.

Informed Consent for Naturopathic Consultation

I hereby authorize naturopathic assessment and consultation and certify that I understand the nature of this health care method, including the risks of possible adverse reactions and choices I may have about other approaches. I understand that no recommendations are being made to me to discontinue any treatment being provided by any other health care professional. I understand that Maleigha Watts, ND does not function as a primary care or medical physician, and that she offers her services as a complement to other services I receive. I have been adequately informed, and questions I have asked have been satisfactorily answered. I represent that I am seeking assessment and consultation in order to further my own health and for no other reason and do not represent a third party. I sign this voluntarily and am aware that I may withdraw this consent and discontinue following the recommendations at any time.
